

get a Chapter 18 packet

mini-project cont'd

take ~10 min to finish up, then we'll do short informal presentations

- name movie/book/TV show/...

- name aliens and star around which their planet revolves

- state whether we've found any actual planets around that star

- if planet found, describe it

then, Review for test on Thursday

- we'll have more review on Thursday also, since it's a 90 min class

- chapters 3, 17, 18
